Mead Lumber Opens Full-Service Building Materials Yard in Sioux Falls, SD
New full-service yard expands Mead Lumber's reach to 54 locations across nine states

Omaha, Nebraska – Mead Lumber is proud to announce the opening of its newest location, **Mead Lumber of Sioux Falls**, a fully operational lumber yard, serving professional builders, contractors, remodelers, and homeowners across the region. The company will celebrate the grand opening with a ribbon-cutting ceremony on **Tuesday, December 2, 2025**, featuring a luncheon, vendor demonstrations, and an after-work happy hour.

The Sioux Falls yard marks Mead Lumber's 54th operating location across nine states, expanding the company's reach and ability to serve the growing construction market of eastern South Dakota, western Minnesota, and northwest Iowa.

"We're thrilled to grow our footprint in a community that continues to thrive," said Dave Anderson, President and CEO of Mead Lumber. "This new location strengthens our ability to support builders with a full range of building materials and services, and it connects directly with our existing operations at **Component Manufacturing Company** and **Reaves Buildings**. It's an exciting step forward for our team and our customers."

Located at 1400 East Benson Road, **Mead Lumber of Sioux Falls** offers a comprehensive selection of contractor-grade materials including lumber, windows, siding, roofing, decking, and more. The new locations complements Mead's existing Sioux Falls operations: **Component Manufacturing Company (CMC)**, which produces trusses, wall panels, and floor systems, and **Reaves Buildings**, which designs and builds engineered metal buildings. Together, the three operations now provide Sioux Falls area builders with a complete suite of building solutions, from structural components to finish materials, under one trusted local umbrella.

"Having a full-service lumber yard in Sioux Falls allows us to serve customers faster and more efficiently," said J. Hoffman, Manager of Mead Lumber of Sioux Falls. "Contractors can now rely on one source for their projects. Our goal is to make every build simpler and more convenient for the pros who keep this community growing."

The Grand Opening Celebration will take place from 11:30 a.m. to 6:30 p.m. on December 2, with the official ribbon cutting at 11:30 a.m. The event is open to all professional contractors, vendors, and community partners.
